PROFESSIONAL SUMMARY

I have spent more than ten years moving between engineering training, live construction delivery, project coordination, and independent business leadership across four countries. What ties it together is that I have never just been the engineer on the drawing or the manager on the schedule. I have run the procurement, carried the risk, negotiated the supplier who underperformed, and stood in front of a Ministry stakeholder to explain why a programme was on track. That range, from technical delivery to commercial negotiation to people leadership, is what I bring to a project management role.

I founded and still lead an active construction business while, earlier in my career, independently delivering major infrastructure investigation work for national programmes. MEng in International Project Management, HFT Stuttgart; BEng (Hons) Civil Engineering, Caledonian College of Engineering.

CAREER HIGHLIGHTS

- Delivered 50+ residential construction projects at 5 to 10 concurrent sites at peak; flagship project closed 60 days ahead of programme.
- Negotiated 17 supplier contracts at 25 to 30 per cent below-market rates; sequenced multi-trade programmes, reducing handover delays by 20 per cent.
- Ran 110+ engineering projects through full lifecycle and delivered 250+ geotechnical investigation reports at 90 per cent-plus accuracy with a consistent two-week turnaround.
- Completed 70+ structural building evaluations with a clean regulatory compliance record across every re-audit.
- Led geotechnical investigation for a major international airport expansion programme, covering 60 to 70 per cent of project scope across active airport sites.
- Supervised teams of up to 15 across active infrastructure sites with a strong safety record; held weekly accountability briefings with senior Ministry of Transport stakeholders.

CORE COMPETENCIES

- **Project Delivery:** Multi-Project Delivery | Programme Planning and Scheduling | Critical Path Management | Contract Administration and Variation Management | Contractor Coordination
- **Commercial and Procurement:** Procurement and Supplier Negotiation | Commercial and Budget Control | Cost-Loaded Programmes | Claims Management
- **Risk, Quality and Compliance:** Risk Register Management | Quality Assurance | Site Safety and Compliance | Government and Regulatory Liaison
- **Technical and Leadership:** Geotechnical Investigation Management | Client and Stakeholder Management | Team Supervision and Training | Cross-Cultural Team Leadership

SKILLS

- **Project and Delivery Tools:** Microsoft Project, Primavera P6, Aconex, SharePoint, Microsoft Office Suite.
- **Engineering and Design Software:** AutoCAD, Revit Architecture, STAAD.Pro, Civil CADD (formal training completed); geotechnical laboratory testing including compressive strength, permeability, and Proctor compaction.
- **Research Methods:** survey design and analysis, semi-structured interviewing, and manual thematic analysis of interview data, applicable to structured technical investigation and reporting.
- **Methodologies:** PMBOK, Agile, Critical Path Method, Lean Construction Principles.
- **Languages:** Bangla (native); English (professional working proficiency); Hindi (intermediate); German (A1).

PROFESSIONAL EXPERIENCE

Founder and Operations Lead | ZAP Comfortable Homes, Bangladesh | 2020 to present

- Own procurement, contractor management, scheduling, quality control, risk, and client relationships across a live multi-project portfolio.
- Delivered 50+ residential and commercial projects end-to-end, running 5 to 10 concurrent sites at peak.
- Negotiated 17 supplier contracts at 25 to 30 per cent below-market rates; sequenced multi-trade programmes, cutting handover delays by 20 per cent.
- Delivered a flagship project 60 days ahead of programme through proactive resequencing and early risk identification.
- Hold direct profit and loss accountability across concurrent live projects; maintain structured risk registers and manage claims and variations through to resolution.
- Direct internal training for a 32-member team spanning finance, design, procurement, site engineering, and skilled trades.

Civil Engineer and Marketing Coordinator | Muscat Laboratory Company, Oman | Jul 2018 to Mar 2020

- Ran 110+ engineering projects through full lifecycle, from scoping through technical delivery to client sign-off.
- Delivered 250+ geotechnical investigation reports at 90 per cent-plus accuracy with a consistent two-week turnaround.
- Completed 70+ structural building evaluations for commercial and residential buildings, meeting full regulatory compliance with no findings on re-audit.
- Led geotechnical investigation on the Muscat International Airport Expansion and the Al Amerat Road Expansion, briefing Ministry of Transport stakeholders weekly.
- Supervised teams of up to 15 engineers, technicians, and field staff across active infrastructure sites.

Student Assistant | IUSD, Universität Stuttgart, Germany | Feb 2022 to Aug 2024

- Coordinated 17 international academic events across 2.5 years, including thesis defences, workshops, and international field trips, for audiences of up to 175 attendees, on time and within budget.
- Owned end-to-end international student intake for 30 to 40 students per cycle across more than ten nationalities, from application processing through interview panel coordination.

Co-Founder | Unique Electronics LLC, Muscat, Oman | Jan 2016 to Jun 2018

- Co-founded a retail electronics initiative from an initial OMR 5,700 investment through to a trade-sale exit in 2018, managing procurement, inventory, and supplier contracts.

Earlier Engineering Roles and Training | Oman and Egypt | 2014 to 2017

- Civil Engineering Training, Al Watanyiah United Engineering and Contracting, Oman (Feb to Apr 2017): hands-on civil engineering training across active sites covering site operations, technical documentation, and field engineering.
- Engineering and Business Analyst Intern, Al Mazaya Trading and Contracting, Oman (2014 to 2017): supported multiple construction projects through requirements analysis, stakeholder coordination, and project documentation.
- Civil Department Trainee, Modern Light Trading and Contracting, Oman (Jan to Mar 2016): cost estimation, procurement, construction methodology, and on-site operations exposure.
- Engineering Trainee, Technibuild Contracting LLC, Oman (Jul 2015): structural inspection, materials testing, risk analysis, and quality assurance.
- Engineering Intern, Arabisk Construction Company, Cairo, Egypt (Jan to Feb 2015): supported construction projects through data analysis, process mapping, and site management.

SELECTED PROJECTS

Muscat International Airport Expansion, Oman

Led geotechnical investigation across a high-pressure, multi-stakeholder infrastructure programme, coordinating site investigation and materials testing against a demanding delivery schedule.

Al Amerat Road Expansion, Oman

Delivered geotechnical investigation with weekly Ministry of Transport briefings, maintaining technical credibility and programme reliability throughout the engagement.

ZAP Flagship Residential Project, Bangladesh

Delivered a full residential construction project 60 days ahead of programme through proactive resequencing, early risk identification, and coordinated multi-trade delivery.

ZAP Commercial and Residential Portfolio, Bangladesh

Manage a live portfolio that has delivered more than 50 residential and commercial projects, with up to ten concurrent active sites at peak, spanning design coordination through client handover.

RESEARCH EXPERIENCE

Research Assistant and Data Analyst (part-time) | MCTspaceLab, Muscat, Oman | Fieldwork in Oman and Lisbon, Portugal | Jul 2024 to present

MCTspaceLab is an Omani research company working in collaboration with the Städtebau-Institut, Universität Stuttgart.

In Oman:

- Supported research on the livelihood strategies of low-income Bangladeshi migrant workers in Oman.
- Conducted exploratory interviews to inform the development of the research framework.
- Carried out in-depth interviews that were later used for life history mapping.
- Assisted with participant observation in workers' everyday environments.
- Conducted public life studies by observing and mapping activities in markets and other public spaces.

In Lisbon, Portugal (from August 2026):

- Supporting research with second-time migrants who had relocated from Gulf countries to Lisbon, through exploratory and semi-structured interviews and participant observation.

Team Member, FURAP Research Project | The Research Council of Oman | 2015 to 2016

- Six-member undergraduate team, competitive grant of OMR 4,000, investigating PET waste as a fine aggregate replacement in concrete. My contribution centred on materials testing, results analysis, and research and academic writing for the project report.

PUBLICATIONS AND RESEARCH OUTPUTS

- Annisa, S. E. and Pranto, S. A. (2026). Conference abstract, Deliver Safe and Social Housing (DASH) Conference, Belgrade, Serbia, 28 to 29 October 2026. Accepted; second author and presenting author.
- Six sole-authored preprints (2026), openly available on SSRN (abstract IDs 7242619, 7242178, 7242118 and 7241638) and Zenodo (DOIs 10.5281/zenodo.21893706 and 10.5281/zenodo.21892978). Full list on ORCID: orcid.org/0009-0002-4916-8181.
- Leading Through Crisis: Identifying and Cultivating Leadership Skills in Construction. MEng thesis (unpublished), sole-authored, HFT Stuttgart, 2024. Bilingual survey (92 responses) and nine semi-structured interviews with construction professionals.
- Performance Analysis of Eco-Concrete with PET as Fine Aggregate Replacement. Undergraduate team research report, The Research Council of Oman, FURAP Call 3, 2016. Six-member team; my contribution: materials testing, results analysis, and research and academic writing.
- A Comparative Study of Compaction Energy on Lime and GGBS Stabilised Soil. BEng thesis (unpublished), sole-authored, Caledonian College of Engineering, 2018.

INDEPENDENT RESEARCH INTERESTS

Ongoing, self-directed inquiries arising from my professional practice, not published or peer-reviewed work.

- **Client Decision-Making and Behavioural Preference Patterns in Residential Interior Design:** observing aggregate patterns in client choices across the ZAP portfolio.
- **Understanding Client Psychology in Bespoke Residential Interior Delivery:** exploring individual client motivations project by project.
- **Direct-Access Market Structures: Understanding Wholesaler-Retailer-Client Relationships in Bangladesh:** examining how direct client access to wholesalers reshapes traditional retail intermediation.

TEACHING AND TRAINING EXPERIENCE

Team Training Lead | ZAP Comfortable Homes, Bangladesh | 2020 to present

- Designed and deliver internal training for a 32-member team spanning finance, design, procurement, site engineering, supervision, and skilled trades.

Industrial Training and Placement Supervisor | Muscat Laboratory Company, Oman | 2018 to 2020

- Supervised more than 500 undergraduate engineering students from five Omani universities during mandatory industrial placements.

Invited Lecturer and Training Contributor | Multiple institutions, Oman | 2016 to 2021

- Delivered invited lectures and training to roughly 150 to 200 learners at Caledonian College of Engineering, Sultan Qaboos University, and the Ministry of Defence Engineering Department.

EDUCATION

MEng International Project Management, Building, Real Estate and Infrastructure

HFT Stuttgart, Germany | 2021 to 2024 | Overall grade 1.9 | Thesis grade 1.7 (German scale, 1.0 is highest)

BEng (Hons) Civil Engineering

Caledonian College of Engineering, Oman (affiliated with Glasgow Caledonian University, Scotland) | 2014 to 2018 | Second Class Honours, Upper Division | CGPA 3.09

AWARDS AND PROFESSIONAL DEVELOPMENT

- Winner, British Council Public Speaking Competition, Oman.
- Former President, AIESEC Oman, leading a team of 25.
- Nominated Delegate, People to People World Leadership Forum, Washington D.C.
- Runner-up, Star Student Award, Caledonian College of Engineering.
- Certified Business Analyst Professional (CBAP), Qatar Advanced Technology and Research Centre.
- Former Member, Chartered Institute of Building (CIOB), United Kingdom.

REFEREES

Academic and professional referees are available on request.
